## Glaive

I don't like how you talk to me so constantly  
And you probably thinking wait, wait what could he offer me?  
I need all these changes, get off of me  
They watching me  
Like where will he go  
Like what will he do  
I heard this rumour bout him  
But I don't know if it's true  
Cause I've never been better  
I gave everything and my sweater  
But I bought another and gave it to heather

I got it on me lil baby  
I make em lay down  
Grown men askin' me questions like what I make now  
I want everything inside his pockets like it's a shakedown  
And if he swing man, we get to jumpin' like it's a playground  
I don't know what you want from me  
Bringing up times when you wanted me  
Anything you want I got all those things  
Heh  
Yeah I got all those things

I gotta  
Hard head but it's not nothing new  
You hit me up last night look for sum to do  
I think its  
Fucked up that you're making me choose  
I've had enough  
It's quite rough being stuck to you

Shut your mouth  
I'm tryna get up  
But I don't know how  
From dawn till dusk  
We'll be at your house  
Get this shit turned up  
Jump inside the crowd

I'm MIA  
No one ever seems to know where I be at  
They on my ass  
I don't do much I smile at her and I just laugh  
They always mad  
So I just brush it off  
Like I can't help it  
After everything that happened  
How come I cannot be selfish  
I swear

I got it on me lil baby  
I make em lay down  
Grown men askin' me questions like what I make now  
I want everything inside his pockets like it's a shakedown  
And if he swing man, we get to jumpin' like it's a playground  
I don't know what you want from me  
Bringing up times when you wanted me

Anything you want I got all those things

Heh

Yeah I got all those things
