

hey hi hyd

Glaive

I think it's all a bit too much for me
She's texting me, she's done with me
She's over me, she's dubbing me, so
She don't really text me back
But like, I don't really care about that
Yeah, I'm doing great, but you didn't ask
20/20 vision, stuck in the past

It's like 2 AM
I can't call my friends
They're already dead
I think that I'm next

I said, "Hey, hi, how you doing?"
Waste my time 'cause I'm fucking stupid
Never really cared if you won't get into it
Found my mind and then I had to lose it
I said, "Hey, hi, how you doing?"
Waste my time 'cause I'm fucking stupid
Never really cared if you won't get into it
Found my mind and then I had to lose it

And I think that she's a bit obsessive
Dedication's impressive
And she's way too invested
So she don't get the message
Everybody saying I talk too much
I don't really talk enough
We're growing up, but we're still young
And I write songs and she gets drunk
Oh woah, oh
Oh, woah, woah, woah, woah, yeah

I said, "Hey, hi, how you doing?"
Waste my time 'cause I'm fucking stupid
Never really cared if you won't get into it
Found my mind and then I had to lose it
I said, "Hey, hi, how you doing?"
Waste my time 'cause I'm fucking stupid
Never really cared if you won't get into it
Found my mind and then I had to lose it
