Glaive

('Cause I don't really feel it anymore  
'Cause I don't really feel it anymore  
'Cause I don't really feel it anymore  
'Cause I don't really feel it anymore)

'Cause I don't really feel it anymore  
I suppose it's only right, I hardly see you anymore  
I pray to God you're fine but not as fine as you were before  
I pray to God you're fine but not as fine as you were before  
'Cause I don't really feel it anymore  
I suppose it's only right, I hardly see you anymore  
I pray to God you're fine but not as fine as you were before  
I pray to God you're fine but not as fine as you were before

The funniest things in life are just true  
The funniest things in life are just true  
Thought about it for months on end  
still didn't come out how I want it to  
Act the way that my father do  
Only do it if my mom approves  
And if I'm being honest with you  
She wasn't really that fond of you  
I don't thing I can talk to you  
Even if I wanted to, there's things in life that I've gotta do  
I feel like a girl a bit, when I come home in these Prada shoes  
Sometimes I laugh a bit, I can't believe that I wanted you

'Cause I don't really feel it anymore  
I suppose it's only right, I hardly see you anymore  
I pray to God you're fine but not as fine as you were before  
I pray to God you're fine but not as fine as you were before  
'Cause I don't really feel it anymore  
I suppose it's only right, I hardly see you anymore  
I pray to God you're fine but not as fine as you were before  
I pray to God you're fine but not as fine as you were before
