

Life Is Pain

Glaive

I know that you trying everyday, but it don't really show
Got all of these people in my life that I don't really know
I keep getting stabbed inside the back, it's getting really hard
I feel like I'm Midas, everything I touch just turn to gold

And life is pain
Serotonin in my brain
I made a huge mistake
5G cell towers melt a face
Life is pain
Serotonin in my brain
I made a huge mistake
5G cell towers melt a face

You can keep knocking, don't answer the door
'Cause I'm too busy hiding the blood on the floor
You've always wanted less, I've always wanted more
I would try to explain but I'm always ignored
Yeah, I've been shaking, lowkey, I've been nervous
I swear to God I don't do it on purpose
You didn't care when I was down bad and hurtin'
It makes me so sad 'cause all my friends are perfect

And life is pain
Serotonin in my brain
I made a huge mistake
5G cell towers melt a face
Life is pain
Serotonin in my brain
I made a huge mistake
5G cell towers melt a face
