

mental anguish

Glaive

Standing next to you I feel better than I ever did before
Oooh oh oh
Still hope it don't go back to how it was before
How it was before

Cause I was really in
Mental anguish
Now you speaking my language (fuck)
Now you acting all passive
Treatin' me like I'm baggage
Mental anguish
Now you speaking my language (fuck)
Now you acting all passive
Treatin' me like I'm baggage

Friends tell me I should let go
Things haven't changed since you left home
And now I'm stranded with a dead phone
You write your wishes on my headstone

Baby, now you speaking my language
Leave me in mental anguish
Yeah

You been on that fake shit
Hate it
Ole homie did a lane switch
How am supposed to change this?
Fuck the crew dat you hang wit
Close my ears when you say shit
All the time it's the same shit
All those painful exchanges
All the breath that I wasted

Cause I was really in
Mental anguish
Now you speaking my language
Now you acting all passive
Treatin' me like I'm baggage
Mental anguish
Now you speaking my language
Now you acting all passive
Treatin' me like I'm baggage
