

Modafinil

Glaive

(Tell me it's just within)
(Tell me it's just within)

It's either something that I said or something that I did (Tell me it's just within)
That just hasn't happened yet, it will (Oh, shit)
When you see me, bow your head (Just within)
It's either happening or it's about to happen next, oh

Stop, start, goin', I just need a moment (Tell me it's just within)
I broke it, it's well within control, and
Modafinil, I just need to focus (Within)
Stop, start, goin', I just need a moment
Stop, start, goin', I just need a moment
I just need a second, out of my control, and
Modafinil, I just need to focus (Tell me it's just within)
Stop, start, goin', I just need a moment

Normally, I'll take some time away, but (Tell me it's just within)
I feel some type of way, so
I kept the time of day, I, I
I don't wanna have to lie to your face (Tell me it's just within)
I don't wanna have to lie to your face

Ха, либо это что-то я сказал (Tell me it's just within)
Либо ты что-то сделала, чего ещё не случилось (Ah, well, ah, shit)
Слышь, отпусти свои глаза (Tell me it's just within)
Когда ты увидишь меня
I know it caused a lot of stress, yeah

Stop, start, goin' (Going), I just need a moment (Moment)
I broke it (Broke it), it's well within control, and
Modafinil, I just need to focus (I just need to focus)
Stop, start, goin'

Just sometimes I think I wish that you would stop, start posing
You caught me in my moment (Tell me it's just within)
Drown it out in rosé, trying not to show it
But I'm broken, I can't even focus (Tell me it's just within)
How am I going to give you what you want?

And I know I said I'd never do you wrong (Tell me it's just within, никогда не сделаю тебе)
But I never said I want you here for long (Long)
I'm not saying that I'm playing you along (Tell me it's just within, эй, так никогда не делай)
Just sometimes, I think I wish that you would stop-

Start going, I just need a moment (Tell me it's just within)
I just need a second, out of my control, and (Control and)
Modafinil, I just need to focus
Stop, start, goin', I just need a moment (Yeah)

(Tell me it's just within)
(Yeah, tell me)
(Tell me it's just within)
