

poison

Glaive

You're like poison flowing through my veins (Straight through my veins)
You're like the voices that stay inside my brain (Inside my brain)
You're more annoying, as I get more insane (Way more insane)
You're like a poison that I just can't escape

I waste time with you
But if it's fine with me, it should be fine with you
And if you ride for me, then I will ride for you
And if you side with me, of course I'll slide for you
Oh, yeah, I don't even try no more
Liar, I don't even laugh no more
Crier, I don't even cry no more
I saw you, I do what I said before

You're like poison flowing through my veins (Straight through my veins)
You're like the voices that stay inside my brain (Inside my brain)
You're more annoying, as I get more insane (Way more insane)
You're like a poison that I just can't escape

Poison, it's affecting me and my
Choices, I can't sleep with their
Noises, I can't breathe with their
Poison, poison
You never wanted me when I wanted you
Like the Capulets, and the Montagues
You never wanted me when I wanted you
Seven lovely words that I said to you

You're like poison flowing through my veins (Straight through my veins)
You're like the voices that stay inside my brain (Inside my brain)
You're more annoying, as I get more insane (Way more insane)
You're like a poison that I just can't escape
