pretending

Glaive

Let's hit downtown
Let's fuck around
Let's get fucked up and let me take you out
Let's fall in love
And have a falling out
You can keep the kids
And fuckin keep the house

I don't wanna stay stuck on pretending
Cant get you out my head when you're in my mentions
Oh oh you bring the best of me
Whenever you're next to me
Feel like I'm buried deep

You take me in
And breathe me out
Caught doin' shit we not allowed
Although your mind is filled doubt
I know you'll somehow come around

Like where you been
I ain't seen you in a minute bitch
Every time I sin
I feel like I'm missing it
Every time I see my kin
I feel like I'm winning bitch
Every time that it's hit or miss
I feel like hitting it all

She likes white wine and
Wasting my time and
I really liked it when
You said I'm timeless I
Feel like I'm dying I
Can't lift my eyelids, I

I don't wanna stay stuck on pretending
Can't get you out my head when you're in my mentions
Oh oh you bring the best of me
Whenever you're next to me
Feel like I'm buried deep
