

So much bullshit, can't stand it  
I've been going crazy lately, I've been going manic  
Ask me how I'm doing baby, I don't know I manage  
Wasting all my time and I'm wasting all the bandwidth

I'm sick and I'm over stimulated  
Neurons in my brain filled with information  
She do cheap drugs and cheap vacations  
I do fake friends, get no conversation  
I'm sick and I'm over stimulated  
Neurons in my brain forward information  
She do cheap drugs and cheap vacations  
I do fake friends, get no conversations

I try hard to sleep at night, and I try so hard to make things  
right  
And I struggle everyday just to close my eyes  
I been shaking, I been nervous, think I'm sleep deprived  
Endorphins, make you look so gorgeous  
And you try so hard to ignore it  
And you say you hate me, adore it  
And the next thing you know it's the morning  
I'm way too tired for this, yeah, I've been way too tired for s  
hit  
And I try my hardest just to make things click  
But it never works out so I think

I'm sick and I'm over stimulated  
Neurons in my brain filled with information  
She do cheap drugs and cheap vacations  
I do fake friends, get no conversation  
I'm sick and I'm over stimulated  
Neurons in my brain forward information  
She do cheap drugs and cheap vacations  
I do fake friends, get no conversations
