

three wheels and it still drives!

Glaive

It was Valentines and you were smiling until I broke the news
You must've hated to hear the truth that I was leaving
Cause now you're raising your voice and your head in your face
Even if I had a choice I don't think that I would stay go
My mom told me this morning
That your dad might be coming home

Right person wrong time you best believe when I say it I haven't felt this way in a long long time
6 dogs by the seaside think you of when they play it
For a for a long long time
And that's alright my friends all ask what's on my mind and I can't lie it's you sometimes
So I just smile think of you and I

How do we always end up right back here in my bedroom with windows that aren't quite clear
I know
That you regret the things you said I hope
That you're a mess and I'm upset oh no
I can't help but hate the cold
I told my mom this morning that I'm never coming home

Right person wrong time you best believe when I say it I haven't felt this way in a long long time
6 dogs by the seaside think you of when they play it
For a for a long long time
And that's alright my friends all ask what's on my mind and I can't lie it's you sometimes
So I just smile think of you and I

Then you called me up and say you hated me
Although I'm not upset
I'd love to reconnect sometime
We could chit and chat bout this and that
I could fuck with your head like you fuck with mine
Call me wish you hadn't dated me
Although I'm not surprised
I wish you didn't have to lie
We go tit for tat about each others past
You can tell me you hate me baby that's just fine

The black paintings are on the wall from the last time you gave me a call
From the last time I really gave you it all
We used to pass time now we're estranged
Oh God I hate this part more then I thought I would
Its far too hard I think I should
Go back to bed
Go back to bed
Go back to bed

Then you called me up and say you hated me
Although I'm not upset
I'd love to reconnect sometime
We could chit and chat bout this and that
I could fuck with your head like you fuck with mine
Call me wish you hadn't dated me

Although I'm not surprised
I wish you didn't have to lie
We go tit for tat about each others past
You can tell me you hate me baby that's just fine
