

Black Mambo

Glass Animals

What'll be now mister Moe
Whisper slow in curls of smoke
Take a back seat or play fair on
Dance with me and shake your bones.

Slow down, it's a science
He's been waiting to bring you down
Same guy with a slice eye
Can hold you and shake you dry.

Labels lays a ... on plush pillows
Slender caves of rating gone
Paperback dreams in head deep thoughts
Twitch their toes to black my moan

Slow down, it's a science
He's been waiting to bring you down
Same guy with a slice eye
Can hold you and shake you dry

Wanna play gin says the slow
A time in all, fly this to his nose
Tickle head gin can take your throne
Pump your veins with gushing gnomes.

Slow down, it's a science
He's been waiting to bring you down
Same guy with a slice eye
Who can hold you and shake you dry

Who can hold you
Who can hold you
Who can hold you
He can hold you
Who can hold you
Who can hold you
Who can hold you
He can hold you
