

Lose Control

Glass Animals

Hey!

Yeah, yeah, yeah, yeah, oh, oh

Bitch I'm a bad man fuck with the bad man (yeah)

Bitch I'm a bad man fuck with the bad man

Hmmmmmmmm

I'm lit you litter, not more lit man something we get rid of

And I never been a swimmer

So how'd this little nigga made his way, through a motherfucking raging river?

All on my lonely, I'm a lone shark bitch

Better have my money, she can keep the heart if not

Then I'm coming to the spot to rip the bones apart

Bet you won't believe my mark with the Bonaparte

And, they can never question my pen

That's a motherfucking diss and that's my friend

With the pen for real, the balls of steel

Yeah, show me which one of y'all are for real

All you niggas just charm or something?

And your lady friend gonna rip my garments up

Hook around and get them unpopular

With it close on every floor get to popping stuff

Oh lord, coming for the highest powers

On god got respect for my rasta man

Oh ja big fat chocolate bar that's on the law

The devil is a lie, and I don't fuck with the law

The law, gotta keep it gold

Putting on for my city, putting on for my bro

Make one false move gon' ram it up

Joey Bad and Glass Animals

So let's go

Nobody move, nobody get hurt (Bout to lose my brain!)

Nobody move, I said nobody get hurt (I'm screaming!)

Nobody move, nobody get hurt (Bout to go insane!)

Nobody move, I said nobody get hurt

Come take a walk through my mental, let's talk, what interest you?

I tell you all the essentials, just please don't be judgemental

And don't expect, just continue, to accept what I give you

Trust is not detrimental, just what you been exempt to

Okay, let us begin, strolling down memory lane

Siphon right by that gym, I been straight flowing for days

Scraping pennies for change, of living in better way

The sky's been blue a lot, but my booze been heather grey

I got this heater today, can't wait to let the bitch go

I got some problems, my man, that I can't tell one soul

So please, just watch what you say

I be that baddest mofo

I tell her lose control

I'm bout to lose control

Nobody move, nobody get hurt

Nobody move, I said nobody get hurt (Lose control!)

Nobody move, nobody get hurt

Nobody move, I said nobody get hurt

Now I'm feeling all this dope
Spinning out I'm drinking through this cup
Tripping out I'm sipping on the cup
Something I don't think I'm one
I'm on fire
Lose control, bout to go insane
Bout to lose my mind, play this old game
I'm so sick and tired of the crazy law
And this crazy place, but I don't wanna give it to you
Lose control, where you go insane
And you lose your mind, play your game
And you're sick and tired of the crazy law
And this crazy place, I don't wanna give it to you

Hey (9x)

That man is a bad man, so don't you try
That man is a bad man, that man is a bad man, so don't you try
That man is a bad man, Badmon is a bad man, so don't you try
That man is a bad man, Badmon is a bad man
Yeah!
