

I keep running away, I keep running away  
When my heart is done I keep running to the setting sun  
Yeah, I'm leaving, I'm looking for a meaning and nothing'll mak  
e me stay  
I keep running away

I've been up in my head, I've been up in my head  
Today I'll maybe get a way to leave my bed  
I wanna say everything you think I think but my mind keeps draw  
ing blanks  
I've been out of my head

When we get where we are  
Don't forget where we're from  
I know, it's already gone  
Yeah, we're coming up short  
But just keep holding on to me  
We're what we need

When we get where we are  
Don't forget where we're from  
I know, it's already gone  
Yeah, we're coming up short  
But just keep holding on to me  
We're what we need

When we get where we are  
Don't forget where we're from  
I know, it's already gone  
Yeah, we're coming up short  
But just keep holding on to me  
We're what we need

When we get where we are  
Don't forget where we're from  
I know, it's already gone  
Yeah, we're coming up short  
But just keep holding on to me  
We're what we need

When we get where we are  
Don't forget where we're from  
I know, it's already gone  
Yeah, we're coming up short  
But just keep holding on...
