

Punked Out

Glass Tides

I'm screaming out loud
But I can't seem to hear a sound
Only your voice in my head
And it's breaking me down
I drag myself through the dirt
Cause I can never make it work
I found myself
Scattered on The ground

I need to let go of this feeling
That everyone around me
Has tried to punk me out
Has tried to keep me
Down and around like a free fall
I always hit the ground
But never make a sound
Try to hear me out

I'm taking my time
But I can't seem to realise
I'm always taking the blame
Pointing your fingers at me
I drag myself through the dirt
To try and please everyone else
I found myself
Scattered on the ground

I need to let go of this feeling
That everyone around me
Has tried to punk me out
Has tried to keep me
Down and around like a free fall
I always hit the ground
But never make a sound
Try to hear me out

It feels like sinking
While they stand around
And look at me
I hold my breath
But I can't seem
To let myself be free

I need to let go of this feeling
That everyone around me
Has tried to punk me out
Has tried to keep me
Down and around like a free fall
I always hit the ground
But never make a sound
Try to hear me out

I need to let go of this feeling
That everyone around me
Has tried to punk me out
Has tried to keep me
Down and around like a free fall

I always hit the ground
But never make a sound
Try to hear me out

It feels like sinking
While they stand around
And look at me
I hold my breath
But I can't seem
To let myself be free

It feels like sinking
While they stand around
And look at me
I hold my breath
But I can't seem
Try to hear me out
