Truth Hurts

Glass Tides

I know it's out of my control
I'm asking cause I'm scared of unknown
Don't wanna let you go
Scared of feeling alone
Holding onto what you used to know
You don't wanna let it go

Screaming
Holding on and believing
Second best to how you're truly
Feeling
Waiting till I'm leaving
Second best, somebody else

Fragile from things that I've done
You told me I was the only one
These stitches are undone

If you didn't want anything
You fucked up everything
If you didn't want anything
You fucked up everything

Screaming
Holding on and believing
Second best to how you're truly
Feeling
Waiting till I'm leaving
Second best, somebody else

I say that I'm fine because the truth hurts
I feel like I hide from my excuses
You opened me up to rip it all out
You shared it around while I was beat down
Don't pull me apart, I can't repair it
I'm scared to move on, I'm not worth it

Screaming
Holding on and believing
I'm second best to you

Screaming
Holding on and believing
Second best to how you're truly
Feeling
Waiting till I'm leaving
Second best, somebody else
Somebody else
