

Believe the words that leave my mouth
I'm one to repeat myself

Cause you're a fucking waste of my time
I'm so sick of hearing your lies

She said
Hold me close and stand right beside me
Take my hand and stay with me
I said
Cut the shit I'll stand by my own side
Take a seat and deal with your own shit!

Don't try to read between the lines
There's no misunderstanding I

I'm just here to
Take what is mine
You're a fucking waste of my time

She said
Hold me close and stand right beside me
Take my hand and stay with me
I said
Cut the shit I'll stand by my own side
Take a seat and deal with your own shit!

She said
Hold me close and stand right beside me
Take my hand and stay with me
I said
Cut the shit I'll stand by my own side
Take a seat and deal with your own shit!
