

Grasper you better run.  
Grasper you better stay.  
And I got it too much I thought  
It's all ok.  
Grasper you better stay.

Wouldn't want to, at least not without you.  
Wouldn't want to now.  
Wouldn't want to, Just wouldn't want to.  
Wouldn't want to now.

Grasper you better run.  
Grasper you better stay.  
And I got it too much... I thought  
It's all ok.  
Grasper you better stay.

Wouldn't want to, at least not without you.  
Wouldn't want to do that.  
Wouldn't want to, Just not a way to word.

And all my life I have been waiting so long  
For you to be there with me  
And I know one day we can be as one  
They used to tell me that I'll dream forever.  
And I'll always stay on top of things, on top of things.  
They used to tell me that I'll dream forever.  
Whore, Are we moving too slow?  
Tangerine.
