

# Dive

Glasvegas

Shadows they come, shadows they go  
Shadows they rush, shadows they slow  
All of the pills make me feel alive  
Into the dark road we drive  
Into the night we dive

Whatever time you turn your key in my door  
It doesn't really matter I can't feel you anymore  
All of the pills, all shapes and size  
My chemical imbalance disguise  
Into the night we dive

My doctor, my shark, or whatever you are  
It's hard being close or apart  
Me and the pills on the edge up high  
Into the night  
Together we dive

We dive  
We dive  
We dive  
We dive  
We dive  
We dive  
We dive  
We dive  
We dive
