

Keep Me a Space

Glasvegas

On the country where you wonder
There you keep
That's where I wonder
That's where you have a clever institution of love
I imagine that it under the cover

I left the low hanging fruit
And the field alone
Should you kiss in his palms
Ever reach below

For you, I should have tried when she had too
With your viewpoint
I still hold that view

Nothing lasts forever
So people say
All things must pass
And I feel these ways
Somewhere in your dream
Catherine, keep me a space

Catherine where you've been
Where you're going?
Get onto to someone stuck to
Your sparest walls

An effort said that life is a beach ball
Throw us many out of your beach
I will catch them all

One day has passed since I spoke to her
Years have passed since I've heard Catherine answer
Then take up the cure
Until I chat up the law
You're still maintaining her
First-ever after

Nothing lasts forever
So people say
All things must pass
And I feel these ways
Someone in your dream
Catherine, keep me a space?

Nothing lasts forever
So people say
All things must pass
And I feel these ways
Somewhere in your dream
Catherine keep me a space

Nothing lasts forever
So the people say
All things must pass
And I feel these ways
Someone in your dream

Catherine keep me a space

Nothing lasts forever
So the people say
All things must pass
And I feel these ways
Someone in your dream
Catherine keep me a space

Somewhere in your dream
Catherine keep me a space
Someone in there, Catherine
Keep me a space
