

## Shine Like Stars

Glasvegas

I see the black fade to grey  
I feel forwards as the only way  
Yesterday all my happiness seemed so far away  
Now it looks as though it's here to stay..

Shine like stars  
Shine like stars do

Cast a wish to the moon afar  
Spare a thought for the ones who matter  
If we could only mend the breaks  
Open up our arms to fate, sweet fate.

Shine like stars  
Shine like stars  
Shine like stars do

I see the black fade to grey  
I feel forwards as the only way  
Hold on tightly and hope it all lasts  
Celebrate the future  
Forget the past.

Shine like stars  
Shine like stars do  
Shine like stars  
Shine like stars do
