

## Only Child

Glee Cast

You've got just one egg  
You're not going to make an omelette  
Flying just one way  
You're not going to make a jet set

Sister, brother, wherefore art thou?  
No need for bunk beds in my bedroom now

Oh, damn you, dads  
Why did you settle for only me?

I'm an only child  
More than enough for them, but not enough for me

Only child, only child, only child

The only Berry on my family tree
