

Don't Lose Me In The Confusion

Glen Campbell

I think you should know I believe in you
There's nothing that you couldn't do
Whatever your wishes, whatever your dreams
I wanna' spend it with you

I think you should know I can handle myself
My life doesn't stay on a shelf
I have my own dreams that I want to pursue
But dreams are no good without you

Don't lose me in the confusion
Nothing should keep us apart
Don't lose me, we should be one
We should be one

I think you should know I can handle myself
My life doesn't stay on a shelf
I have my own dreams that I want to pursue
But dreams are no good without you

Don't lose me in the confusion
Nothing should keep us apart
Don't lose me, we should be one
We should be one, we should be one

I think you should know I believe in you
There's nothing that you couldn't do
Whatever your wishes, whatever your dreams
I wanna' spend it with you

Don't lose me in the confusion
Nothing should keep us apart
Don't lose me, we should be one
We should be one, we should be one

Don't lose me in the confusion
Nothing should keep us apart
Don't lose me, we should be one
We should be one
