

Fool Ya

Glen Campbell

No truer words have ever been heard
Seek and ye shall find
But just beware if you don't share
You'll be losing your mind

'Cause life's little ups
Life's little downs
Will afford you all the problems you need
Then there are them that try to

Fool ya' with their lies
Fool ya' right before your very eyes
They'll try to fool ya'

Love is a trap, we all take the rap
No matter how it should go
And if you are sad well it really don't matter
We only reap what we sow

And I'm here to tell you
I believe my friends
That we'll survive and life will go on
In spite of them that try to

Fool ya' with their lies
Try to fool ya' right before your very eyes
They'll try to fool ya'

So you beware' of them that try to
Fool ya' with their lies
Try to fool ya' right before your very eyes
They'll try to fool ya'
Yes, they will, they'll try to fool ya'
Lord oh, they'll try to fool ya'
