

# Give Me Back That Old Familiar Feeling

Glen Campbell

I keep waiting for a song to come and sing you back to me  
I never felt so free as when I had you  
Our rhythm was the best that's touched the likes of me  
I was really me when I had you

Give me back that old familiar feeling  
Let me feeling like I was someone  
Give me back that song we sang in harmony  
Just you and me singing together

My radio still plays the songs you like to hear  
I wish you were here, oh, I need you  
I'll take the time and tune the station in real clear  
As if you were here, oh, I love you

Give me back that old familiar feeling  
Let me feeling like I was someone  
Give me back that song we sang in harmony  
Just you and me singing together

Give me back that old familiar feeling  
Let me feeling like I was someone  
Give me back that song we sang in harmony  
Just you and me singing together

Give me back that old familiar feeling  
Let me feeling like I was someone  
Give me back that song we sang in harmony  
Just you and me singing together
