

Magic Fire

Glen Campbell

Magic fire
Warmed her heart for me
Make her lips start burning and yearning
For only the old flame
Grow, higher
Light her eyes with love
Fill her with the desire
I am dreamin' of

I heard the Gypsy story
Lovers know so well
Near the fire
The coldest lips
Can't resist bein' kissed
'Neath your spell

Magic fire
When your embers glow
Let my love remember
That I love her so

I heard the Gypsy story
Lovers know so well
Near the fire
The coldest lips
Can't resist bein' kissed
'Neath your spell

Magic fire
When your embers glow
Let my love remember
That I love her so
