

Scene of the Crime

Glen Campbell

Like a thief in the night you stole my heart away
Love at first sight, I couldn't look the other way
Girl you led me on and it was all a lie
Cut me to the bone and never blinked an eye

Another victim with a broken heart
You left your prints all over mine
I can't forget you so I'm hopin' in time
You'll be return to the scene of the crime

Well you knew all along premeditated pain
Oh I know it's so wrong and I can't explain
While dying slowly from my open wounds
I still can't get you outta my mind

I can't forget you so I'm hopin' with time
You'll be returnin' to the scene of the crime

Another victim with a broken heart
You left your prints all over mine
I can't forget you so I'm hopin' in time
You'll be returnin' to the scene of the crime

Another victim with a broken heart
You left your prints all over mine
I can't forget you so I'm hopin' with time
You'll be returnin' to the scene of the crime
