

Second To None

Glen Campbell

Best that I remember or maybe worse that I forget
Life felt good throughout my growing years
Football in the front yard
A game of flip with baseball cards

We raced our bikes fast down the street
While the wind whipped past our ears
You know I love the friends and family
Who shaped those special memories
But none of them can quite compare to who you are to me

Second to none broader than the heaven's end
Second to none more faithful than the truest friend
The cream of the crop tip of the top
The best of all the rest rolled into one
Yeshua, Lord of salvation, you are second to none

I have folks who love me how I need them in my life
To hold me close through every high and low
And I have found in such relationships
Your hand of perfect providence

They're timeless jewels my heart holds dear
And I'm proud to say I know
But the brightest smile on any face
Will not outshine your matchless grace
None of them can quite compare
To who you are to me

Second to none broader than the heaven's end
Second to none more faithful than the truest friend
The cream of the crop tip of the top
The best of all the rest rolled into one
Yeshua, Lord of salvation, you are second to none

Second to none broader than the heaven's end
Second to none more faithful than the truest friend
Second to none, second to none, second to none

Second to none broader than the heaven's end
Second to none more faithful than the truest friend
The cream of the crop tip of the top
The best of all the rest rolled into one

Yeshua, Lord of salvation, you are second to none
You are second to none, you are second to none
You are second to none, you are second to none
You are second to none, you are second to none
