

Spinout

Glen Campbell

When her motor's warm
And she's purrin' sweet
Buddy let me warn ya'
You're on a one-way street

She'll crowd ya' close
Spin your wheels
Then you're gonna know how it feels

Spinout, spinout

You Better watch those curves
Never let her steer
If she can shake your nerves
She can strip your gears

She'll get your heart
To goin' fast
Then she'll let you run out of gas

Spinout, spinout

The road to love is full of
Danger signs
Too many guys were lost
Who crossed those double lines

Doncha know she's out to prove
That she can really score
Never saw parts move
Like that before

To flag you down
Oh that's her goal
Scoot before you lose control

Spinout, spinout

The road to love is full of
Danger signs
Too many guys were lost
Who crossed those double lines

Doncha know she's out to prove
That she can really score
I never saw parts move
Like that before

To flag you down
Oh that's her goal
Scoot before you lose control

Spinout, oh! Spinout
Spinout
