

Why Don't We Just Sleep On It Tonight

Glen Campbell

Hold it, don't you walk out the door
Well I think we've been through this a time or two before
We don't need one more
Oh darling, gotta get through to you
I gotta make you understand the things you do

If it's love you need just take it
I can guarantee we'll make it
Nothing's wrong
So baby won't you just hang on?

And why don't we just sleep on it tonight?
Everything looks clearer in the early morning light
When the sun goes down
You're the only one I want my arms around
We don't have to fight
So why don't we just sleep on it tonight?

Hold it, don't you say another word
Well silence is the sweetest sound I've ever heard
Filling up with expectation
Waiting for the sweet sensation going strong
Oh baby, don't you wait too long

And why don't we just sleep on it tonight?
Everything looks clearer in the early morning light
When the sun goes down
You're the only one I want my arms around
We don't have to fight
So why don't we just sleep on it tonight?

Well no one in the world could know you better
Why is it so hard to make you see?
You say nothing lasts forever
Then you don't know me
I know you don't know me

So why don't we just sleep on it tonight?
Everything looks clearer in the early morning light
When the sun goes down
You're the only one I want my arms around
We don't have to fight
Why don't we just sleep on it?

Why don't we just sleep on it tonight?
Why don't we just sleep on it tonight?
Why don't we just sleep on it?
Why don't we just sleep on it?
Why don't we just sleep on it?
Why don't we just sleep on it?
We'll sleep on it
We'll sleep on it
