

Lovevolution

Glenn Fredly

There's nothing can stop me
To stand up and show you how I feel
With the sky above, river of rainbow
I'm in changed

No more revolution
It's more than evolution
There's a shine
That I know, baby, yeah

Lovevolution is lovevolution
That's the only way to go
The only way I wanna go

Lovevolution is lovevolution
That's the only place to go, yes
What we need is lovevolution

There's nothing can stop me
To shine and show you how I feel
I'm moving on
Let's get it on
I'm in change, baby, oh yes

Please no more revolution
It's more than evolution
There's a shine (shine) that I know, baby

Lovevolution is lovevolution
That's the only way to go
The only way I wanna go, yes

Lovevolution is lovevolution
That's the only place to go
What we need is lovevolution

Summer breeze is blowing, yeah
And all the birds are still singing
And I know
It's freedom

Lovevolution is lovevolution
That's the only way to go, yeah
The only way I wanna go

Lovevolution is lovevolution
That's the only place to go
What we need is lovevolution
