

# First Underground Nuclear Kitchen

Glenn Hughes

I wanna know just how you feel It time to move gonna make it real  
There is a place I got to go No doubt about it, you must know

Now I would like your company The fruit tastes better off the tree  
It gets me stoned in everyway Now I'll be gone, hear what I say

Ain't no mistake, it's a way of livin' This is the First Underground Nuclear Kitchen  
It ain't no fake, get back what your givin' This the First Underground Nuclear Kitchen

Take you down all the way What you seek you will find And it won't go away  
Cuz it's deep in your mind

Now have you heard, we never close Who's got the key, nobody knows  
So let this groove motor on Can't say goodbye until I'm done
