

## Lay My Body Down

Glenn Hughes

I've been travelin' for so many days  
Through the valleys I have gone  
I've been searchin' in so many ways  
For the things that I have done  
Now I ask you, do you love me?  
And don't tell me any lies  
I will keep on ridin' in the early morning light  
'Til they lay my body down  
Behind the conscience of every man  
Is a thing we all must trust  
As I look across the land  
I see shadows in the dust  
So how can you judge me  
When you don't know me?  
I know you'll miss me when  
I'm dead and gone  
I will keep on ridin' in the early morning light  
'Til they lay my body down  
So close your eyes and you will find me  
I'll be watching over you  
I will be with you, you'll feel my spirit  
I know your faith will put you through  
Now, I ask you, do you love me?  
And don't tell me any lies  
I will keep on ridin' in the early morning light  
'Til they lay my body down  
I will keep on ridin' in the early morning light  
'Til they lay my body, 'til they lay my body  
'Til they lay my body down  
I know you'll miss me, I know you'll miss me
