Standing on the Rock

Glenn Hughes

Well I'm going down to Ohio 'scuse me but I got to go I'm on my bus I'm driving break neck speed

And I need a little company And you could call it therapy I'm b urnin' with a passion to succeed

Get 'outta my way and step aside And roll away the years that d ied I ain't no living wreck So let me ride

So let's go find tranquility Surround myself with liberty And o pen up the gates Of this disease that kills me Shackle me down limb by limb And tie the rope round me again And I will set you free

Standing on the rock

Standing on the rock Standing on the rock

So magnetic so unreal You changed my life You made me feel Ther e'll be no intermission here tonight

Get outta my way and step aside And roll away the years that di ed I ain't no living wreck So let me ride
