

# All I See is You

Glenn Lewis

I remember when  
I stood in this very place and I told you  
I'm always there for you

You understand  
We're better than anyone, still I act the fool  
When I know that you're the truth  
I complicate when the simple fact has always been right here  
Till the day right in front of my face

When it's not the same  
That the difference between love and lust ain't win or lose  
But it's how you play the game

And I see your face  
There's so many places I've been  
All I, all I see is you  
Been to many places  
And I see your face  
All I, all I see is you

I've been telling myself  
All this time that I am ready  
The same excuse I play it off when I'm with you  
But I'm so much better when I'm with you

We're two of a kind  
The rest is wasting time  
I complicate when the simple fact has always been right here  
Till the day you're right in front of my face

When it's not the same  
The difference between love and lust ain't win or lose  
But it's how you play the game

And I see your face  
There's so many places I've been  
All I, all I see is you  
Been to many places  
And I see your face  
All I, all I see is you

The deepest places in my mind  
In my dreams, when I close my eyes  
We've been friends forever  
Sometimes it's like we're together  
When I tell myself  
Thoughts of you make it harder  
And it ain't nothing new  
'Cause baby, I know that it's you

And I see your face  
There's so many places I've been  
All I, all I see is you  
Been to many places  
And I see your face  
All I, all I see is you

All I see, you and me
