

Better with Time

Glenn Lewis

It's morning time
I can't wait until we are away
'Cause last night
Is just a preview to the love we'll make

It's morning time
To see the sun shining off your face
Really just reminds
Of how more beautiful you are each day

Faithfully how we still love so deep
Much better than a fantasy
You and I became we
I believe more than what I can see
Keep on believing mind could conceive
God must really love me

'Cause you're mine
And it's getting better with time
Lately I find
You keep getting better with time
You're mine
And it's getting better with time
Lately I find
You keep getting better with time

I know we love
Don't know what's betting your smiles or your cares
I know my love
The way we are is no coincidence
'Cause both of us
We know that love is more than just a gift
It's more than trust
It's how we know that destiny exists

Faithfully how we still love so deep
Much better than a fantasay
How you and I became we
I believe more than what I can see
Keep on mind could conceive
God must really love me

After coming so far
And to receive a love like ours
Everything we've been through
Love I'd do it all again with you
Many love's has gone wrong
Until you came around
Wasn't always sure of faith
Girl you make love worth the wait
'Cause you're mine

Better with time
Lately I find
You keep getting better with time
You're mine
And it's getting better with time

Lately I find
You keep getting better with time
