

# Dream

Glenn Lewis

Look at you now, you really haven't changed  
Still as beautiful as first day we met  
But something's different, doesn't seem so long ago  
Amazing how the years can go

When we wanted different things  
You wanted a family, I was chasing my dream  
I didn't know what I had back then  
How could I go off through the growing pains of being a man?

I really didn't understand  
I took you for granted, now it's out of my hands  
Now I wish I had it to do all over again

'Cause all I do is dream about the times we had together  
We used to think that they would last forever  
But who've thought it be my fault we didn't make it  
And when I'm missing you so much that I can't take it  
I just close my eyes, I just close my eyes and dream

Don't know what I had thought I really figured out  
Looking back had no clue what it was all about  
I tried to explain what I was feeling but when I couldn't get through  
I would just turn around and get mad at you

Frustrated not knowing the reasons for the things I do  
Couldn't see just why you and I would fall apart  
Humble by drift and heart  
But now I can clearly see how things ended up because of me  
If this is how it's supposed to be then I'll just

Dream about the times we had together  
We used to think that they would last forever  
But who've thought it be my fault we didn't make it  
And when I'm missing you so much that I can't take it  
I just close my eyes, I just close my eyes and dream

Looking back on yesterday how we were so deeply in love  
Wishing it could be that way again  
But even if it can't be, and we we're made just friends  
All I have to do is dream

Dream about the times we had together  
We used to think that they would last forever  
But who've thought it be my fault, we didn't make it  
And when I'm missing you so much that I can't take it  
I just close my eyes, I just close my eyes and dream

Dream about the times we had together  
We used to think that they would last forever  
But who've thought it be my fault, we didn't make it  
And when I'm missing you so much that I can't take it  
I just close my eyes, I just close my eyes and dream
