

## Living a Dream

Glenn Lewis

It's like time is still it's so bad to be true, oho  
And dreams never witnessed nothing ever like you,  
That's right, though I  
Eyes wide opened still hard to believe  
Standing right next to me

Cause it's like living a dream  
Closest thing here with anybody  
Cause it's like living a dream  
All I want don't wake me up

Unless I'm next to you in the morning  
Till I'm next to you in the morning  
Girl I swear you're made for me  
Oh girl you're just my type

Girl for you're wrong I'm in with it  
You compliment my style that's right  
Though I'm  
Eyes wide opened still hard to believe  
Standing right next to me

Cause it's like living a dream  
Closest thing here with anybody  
Cause it's like living a dream  
All I want don't wake me up

Don't wake me or shake me  
Before I get to see it all  
I wanna make it to it in the end  
And start all over again  
Making dreams reality

Cause it's like living a dream  
Closest thing here with anybody  
Cause it's like living a dream  
All I want don't wake me up.
