

Make Luv

Glenn Lewis

Girl I want you so
I can't lie, you're the key to my life
It's kind of like a winter's cold
But with you in my life
I'm stuck in July

Even when we first hit fight
I can't stay mad at you 'cause baby
Be back making love that night
Baby how we do what we do drive me crazy
So can we make love
Like we're mad at each other girl
Baby makin love
Like you tryin' to take me from my girl
Don't you make love
Like we're really tryin to get over something
Let's make love
Girl tonight I, I really wanna make love

And baby when you come through the door
You wanna feel like close
Right by the floor baby
Baby when you get to the bed
Gon' be a whole lot of crazy things
Going through your head
You're ready by now I'm sure
I could feel the moisture from your juicy catoure baby
Now I'm ready too
Sometimes it don't matter what we do

Even when we first hit fight
I can't stay mad at you 'cause baby
Be back making love that night
Baby how we do what we do drive me crazy
So can we make love
Like we're mad at each other girl
Baby makin love
Like you tryin' to take me from my girl
Don't you make love
Tonight I really wanna make love
Let's make love
Girl tonight I, I really wanna make love
