

## Up & Down

Glenn Lewis

You were there from the day I was hussling struggling  
With dreams and ambitions when nothing was coming in  
You were there, you were there so it don't matter what they say  
'Cause we ain't gonna do this thing our way  
You make shelter in to put my pride in  
You put your time in girl I'm committed  
It don't matter which way that we go  
As long as we keep holding on

Said we go up, we go down  
And you're always around  
And I know you're a fighter  
So I'll stay beside you  
Just know, know, know  
I'll be there for you, you baby

I remember talking non sense saying that I'm gonna leave  
But you gave me a look like boy you know you're stuck with me  
I remember days when you held it down on your own  
When my income was slow you're so incredible baby  
You made suffering feel like succeding  
Build my confidence girl I'm committed  
It don't matter which way that we go  
As long as we keep holding on

Said we go up, we go down  
And you're always around  
And I know you're a fighter  
So I'll stay beside you  
Just know, know, know  
I'll be there for you, you baby

Girl, don't ever think  
That I won't be there  
Hold tight won't never change  
Just how much I care

Said we go up, we go down  
And you're always around  
And I know you're a fighter  
So I'll stay beside you  
Just know, know, know  
I'll be there for you, you baby
