

## Fallin

Glenn Medeiros

I was alone and I've been thinkin'  
How love has taken its toll on me  
I opened my heart and was cheated again  
Then you walked in  
Last thing I needed was to fall for another  
But I got this feelin' you can make me forget  
One night can leave you broken hearted  
Too late now I've already started

Fallin'  
And deeper I go the more I'm believing  
But my heart needs to know  
I'm fallin'  
And maybe this time I can hold on to love  
'Cause I want it enough can't you see that  
I'm fallin'  
Forever and always that's the promise she made  
Only words that will soon fade away  
And I believed her but never again  
That's what I said  
Last thing I needed was to fall for another  
But I got this feelin' you can make me forget  
One night can leave you broken hearted  
Too late now I've already started
