

Die Alive

Glenn Travis

Everybody knows what they want so they have it
Nightmares in my dreams, in the dark, they're both dancing
Thought if I got here, it'd be easy to make it last
Make it last

They say hurry up and lose, so you went bottoms [?] losing
You closer now than you've ever been before, trust me
It ain't over till it's over, I still have breath in me
There's fire in my blood [?]

Inside my one and all
Tonight I'm just as good
Alive, alive
I'm not leaving home
I'm fine as long as I die
Alive, alive

I'ma be a legend when you start now, yeah
Can't nobody tell me that I wasn't meant for this
[?] when it was just a dream
I had a vision, I would capture everything
So I can't slow down
Now when I'm knocking on the door [?]
[?] said it was impossible, I went harder
Now I got a little tease
Can't give up, I don't need no backup
I said hurry up and lose

They say hurry up and lose, so you went bottoms [?] losing
You closer now than you've ever been before, trust me
It ain't over till it's over, I still have breath in me
There's fire in my blood [?] never run

This time I want it all
Tonight I'm just as good
Alive, alive
I'm not leaving home
I'm fine as long as I die
Alive, alive

Die alive
Die alive
Die alive, die alive
Die alive
