

Feels Right

Glenn Travis

Girl, I've been missing you so bad, I need ya
Girl, I feel like it's been forever, I see ya
Just a couple days ago, feels like a lifetime
You here just feels right
We got a romance, just see it
I don't care or even give a damn, I'm seeing
I just wanna dance all night long
You here just feels right

Baby I know it gets hard
[?] but things just ain't the same
You know that we got our flaws
But we love, we get stronger every day

Need it right now, I can't wait for it
Hit it right now, make you say sorry
I can't believe that I'm with someone like you
I prayed for this
I prayed for this

You light my world up
Whenever you're closer to me
I just catch all the feels
So I know it's real

Girl, I've been missing you so bad, I need ya
Girl, I feel like it's been forever, I see ya
Just a couple days ago, feels like a lifetime
You here just feels right
We got a romance, just see it
I don't care or even give a damn, I'm seeing
I just wanna dance all night long
You here just feels right

Baby I know we get lost
Now all I wanna do is see your face
Because you give me a spark
In my heart, no one's taking that place, no

Need it right now, I can't wait for it
Hit it right now, make you say sorry
I can't believe that I'm with someone like you
I prayed for this
I prayed for this

You light my world up
Whenever you're closer to me
I just catch all the feels
So I know it's real

Girl, I've been missing you so bad, I need ya
Girl, I feel like it's been forever, I see ya
Just a couple days ago, feels like a lifetime
You here just feels right
We got a romance, just see it
I don't care or even give a damn, I'm seeing
I just wanna dance all night long

You here just feels right

Baby, you here just feels right
You here just feels right
