Help

Glenn Travis

I don't wanna show resistance, but baby you
Bare me take this position, the way you do
Like why you tryna put me in a corner
You don't think I done enough for ya

'Cause what we have ain't no more
'Cause you must not know that I got trust issues like you
I gave you more than the one I had before
And all you do is tell me that I'm wrong
But baby, nothing wrong

You just gotta calm yourself
Listen to nobody else
Call me when you need my help
When you need my help
You just gotta calm yourself
And listen to nobody else
Call me when you need my help (ay)
When you need my help

You like the way I love your body, girl you wonder why
You cannot stay away from me ever for too long
You don't see all of me choosing just to run after you
I can't stop making my mind want to cave into you
I can throw straight when it's light out
Get out of my head girl you kaylups
I know you don't wanna leave girl I'm all yours
You don't wanna leave 'cause I want you
I can make you feel like a new you

Cause what we have ain't no more
'Cause you must not know that I got trust issues like you
I gave you more than the one I had before
And all you do is tell me that I'm wrong
But baby, nothing wrong

You just gotta calm yourself
Listen to nobody else
Call me when you need my help
When you need my help
You just gotta calm yourself
And listen to nobody else
Call me when you need my help (ay)
When you need my help

My help, my help
My help, my help
My help, my help
