

Hottie Tottie

Glenn Travis

Aye yeah

We been on a wave she my bae from the bay side
Pretty up your self looking good for the face time
Shimmy shimmy slide Criss Cross for the bass line
Hug it when she dance I'm feeling something give me some more
Let me see that her body suicide hit hard haymaker
She wanna serve it up, yeah
She think I'm worthy gotta prove her right I'm on the mound
Strike three and I'm out she crazy gotta make my move

Hottie tottie, Ali, she the one imma thug it out, thug it out
She wanna live a pop song fall in love
Travel and grow old
She wanna push it push it push it push it whip a Range Rover
Innocent but cross her and she'll cut your head off
So talk nice and slow
But that's my girl, be careful

I fantasize when you're not by my side, I want all the risk
Not playing it safe, I want all the chips
Know I've done wrong
I want to make you forgive me, I know you still care
Nobody as bad as you gotta keep them off of you
They don't get no time
Places to be she rolling with me too bossed up lil wifey
You are in control, girl, you know, I want you

Body suicide hit hard haymaker
She wanna serve it up, yeah
She think I'm worthy, gotta prove her right, I'm on the mound
Strike three and I'm out, she crazy, gotta make my move

Hottie tottie, Ali, she the one imma thug it out, thug it out
She wanna live a pop song fall in love
Travel and grow old
She wanna push it push it push it push it whip a Range Rover
Innocent but cross her and she'll cut your head off
So talk nice and slow
But that's my girl, be careful
