

# I Can't Wait

Glenn Travis

Baby, baby  
Yeah, yeah

Play this every night  
You miss me, want me by your side  
Just so I feel closer to you  
Sing this, girl, every night  
You get scared, need me by your side  
Until I can sing it to you

Wish we could speed up time  
Need your body next to mine  
Without you I'm dying inside  
It's almost midnight, look up at the sky

Ooh, I can't wait  
Even though we're so far away  
You still make my heart detonate  
I can't wait to give you my name  
I can't wait  
Thinking 'bout you like every day  
I can't wait till it's you and me  
You are mine, I still can't believe

Play this every night  
You miss me, want me by your side  
Just so I feel closer to you  
Sing this, girl, every night  
You get scared, need me by your side  
Until I can sing it to you

Wish we could speed up time  
Need your body next to mine  
Without you I'm dying inside  
It's almost midnight, look up at the sky

Ooh, I can't wait  
Even though we're so far away  
You still make my heart detonate  
I can't wait to give you my name  
I can't wait  
Thinking 'bout you like every day  
I can't wait till it's you and me  
You are mine, I still can't believe

I can't wait  
Even though we're so far away  
You still make my heart detonate  
I can't wait to give you my name  
I can't wait  
Thinking 'bout you like every day  
I can't wait till it's you and me  
You are mine, I still can't believe
