

Lullaby

Glenn Travis

I'ma start by saying
You been on my mind all day
Girl you make it hard to think
I'm just saying
And you know that I love ya
I can never run away
You didn't make it hard for me
I ain't playing

Baby I'm too stuck on you
When you coming through?
Tell me what you wanna do
You know that we should make a move
'Cause I got
Plans for both of us
I will gain your trust
I know my heart will be enough
Baby we don't gotta rush
We'll go slow

And I'll be taking your hand
I'ma hold you close and kiss you all the time
'Cause you're mine
I know that you feel me
I can see it when I look into your eyes
You're so fine
Baby you the realest
Can't nobody go and try to waste your time
I know that you hear it
Listen while I put you to sleep tonight

Like a lullaby, lullaby
Baby you gon' sleep just fine
With your lullaby, lullaby
We'll be going back and forth all night
Like a lullaby, lullaby
Baby you gon' sleep just fine
With your lullaby, lullaby
We'll be going back and forth all night

Every time that you touch me
I just can't control myself
You do me like nobody else
You're the greatest
So I feel so lucky
It's the greatest thing I felt
You know how to make me melt
My safe haven

That's why I'm all up on you
Learn so much from you
(Learn so much)
I know what I shouldn't do
Maybe we should make a move
'Cause I got
Plans for both of us
I will gain your trust

I know my heart will be enough
Baby we don't gotta rush
We'll go slow

And I'll be taking your hand
I'ma hold you close and kiss you all the time
'Cause you're mine
I know that you feel me
I can see it when I look into your eyes
You're so fine
Baby you the realest
Can't nobody go and try to waste your time
I know that you hear it
Listen while I put you to sleep tonight

Like a lullaby, lullaby
Baby you gon' sleep just fine
With your lullaby, lullaby
We'll be going back and forth all night
Like a lullaby, lullaby
Baby you gon' sleep just fine
With your lullaby, lullaby
We'll be going back and forth all night

Like a lullaby, lullaby
Baby you gon' sleep just fine
With your lullaby, lullaby
We'll be going back and forth all night
Like a lullaby, lullaby
Baby you gon' sleep just fine
With your lullaby, lullaby
We'll be going back and forth all night
