

March

Glenn Travis

Weight in the water
I know it's hard to breathe
But we will withstand the war
And we know it's harder to forgive
Another black man, he was taken
All the sons and the daughters who gon' raise him
Lord knows that I'm hurting for my people
Because enough is enough

We gotta make a stand
Let's join hands, we are all people
No matter 'bout your skin
We can do anything together
Raisin' up our fists
It coulda been another dark day
I'm so sorry for the future's loss
We shouldn't be dying
Everyone wants to live
Live a life without fear
In case we outta fight
We've been held down too long
When we right now beg no more
Let's help each other heal
All the scars

So we march
March
March, yeah
So we march
March
We will march
March, march, march
March
