

My Time

Glenn Travis

As soon as the smoke clears I'll go outside
That's what everybody says
Worried 'bout limitations, but I don't mind
A little test or a little resistance
'Cause I lead with my head, I don't swallow the lead
I try my best and then it gets better
'Cause all my life I been under pressure
So I can't lose heart
I'm shooting the whole sky
I'm not wasting no time
Wasting no time
No I can't lose heart
I'm shooting the whole sky
I know this is my time
This is my time

Oh oh, oh oh
This is my time
Oh oh, oh oh
This is my time

I'm on the way
Full speed ahead to my destiny
I done got this far, what else can they say (nothing)
I remember y'all being in my way
But now y'all in my face
I came up smooth on 'em
And I'm still getting stronger
They wasn't ready for the glo up
I'm looking back like I told ya
I knew that it would be like this
I would win like this
So I flex like this

As soon as the smoke clears I'll be alright
That's what everybody says
Worried 'bout limitations, but I don't mind
A little test or a little resistance
'Cause I lead with my head, I don't swallow the lead
I try my best and then it gets better
'Cause all my life I been under pressure
So I can't lose heart
I'm shooting the whole sky
I'm not wasting no time
Wasting no time
No I can't lose heart
I'm shooting the whole sky
I know this is my time
This is my time

Oh oh, oh oh
This is my time
Oh oh, oh oh
This is my time
Oh oh, oh oh
This is my time
Oh oh, oh oh

This is my time
