Need Somebody

Glenn Travis

No-oh-oh
(Ooh, 'cause I want you
Ooh, gotta have you, you
Ooh, 'cause I want you
Ooh, gotta have you
Ooh, 'cause I want you
Ooh, gotta have you, you
Ooh, 'cause I want you
Ooh, gotta have you)

We all need somebody
Once in life we gotta love 'em
So if you love me, don't hide it
You gotta let go of the feeling like this

Just let your happy feelings
I know that you're scared of the risk
It's all about the start, not finish
Right now

Don't worry about a future
'Cause I'm way too scared to lose you
As soon as you stay in the moment
It's way too strong to ignore it, yeah
It's way too strong to ignore it ('cause I want you)
It's way too strong to ignore

We all need somebody
Once in life we gotta love 'em
So if you love me, don't hide it
You gotta let go of the feeling like this
We all need somebody
Once in life we gotta love 'em
So if you love me, don't hide it
You gotta let go of the feeling like this

Like this, like this
You gotta let go of the feeling like this
It's way too strong to ignore it

We all need somebody
Once in life we gotta love 'em
So if you love me, don't hide it
You gotta let go of the feeling like this
We all need somebody
Once in life we gotta love 'em
So if you love me, don't hide it
You gotta let go of the feeling like this
