

# Nirvana

Glenn Travis

It's a vivid illustration  
She look like a damn vacation  
Always wanna test my patience  
With all that sun bathe and tan graces  
She my baby, I say baby  
I gotta stay on it like 9 to 5 every night  
She wanna ride  
She wanna go down the slide  
And I wanna see water falls  
Imma swim till I can't no more  
Let's get all the way involved  
Would you like to take a tour  
We can do dat, cause I got miles on me  
We can go for a while on it  
And baby you know I'm yours

Paradise does it feel go to you  
Incredible times far away with you  
We'll find it anywhere we run to  
Everywhere we run to trees and fruits  
Follow and we'll go to nirvana  
Nirvana, nirvana  
We'll be alone no one will know  
Nirvana, nirvana  
Oh, in the garden  
The river flows, through your body  
And I'm the only one that knows where the treasure lies  
Runnin through the temple imma steal like Indiana jones tonight  
Tonight I, your just so sacred baby  
Baby please don't hold back now  
You never cease to amaze me how  
The way you make me feel  
You know it's real that's why I gotta tell everybody  
I can do dat cause I got miles on me  
We can go for a while on it  
Oh baby you know I'm yours

Paradise does it feel go to you  
Incredible times far away with you  
We'll find it anywhere we run to  
Everywhere we run to trees and fruits  
Follow and we'll go to nirvana  
Nirvana, nirvana  
We'll be alone no one will know  
Nirvana, nirvana
